

Seesaw is an on-line tool that we have been using in school for a number of years to enable children to upload evidence for PAWS homework. During lockdown we used this familiar app to provide a platform for your child to share the work that they had completed with you at home. We want to congratulate you on taking on the unexpected role of teacher at such a short notice. Some of you will have enjoyed this time whilst others have struggled to motivate learning at home. Fortunately, we have the whole school back today and are looking forward to providing structure and routine. Whilst children are back in school we will revert to Seesaw being used for PAWS evidence only. We expect no more than 1 piece of work each week to be submitted that is in response to a PAWS task

In the event of a second lockdown at Castle Hill we will use this brilliant digital platform again to share work completed at home with our teachers and classmates. Seesaw had empowered children and families to share their progress towards tasks set easily and quickly.

Oak National Academy provides a structure for home learning that we will be directing you to follow in this event.
