

Welcome Busy Bees Playgroup

A hive of activity

About Us:-

Busy Bees Playgroup is a well-established community playgroup that operates from a dedicated room and garden area within Castle Hill Primary School. Busy Bees has been providing quality pre-school care to the local community for over 20 years and has close connections with Castle Hill School. Busy Bees is a registered charity, managed by a volunteer committee of parents whose children attend playgroup.

Busy Bees is a fully inclusive playgroup and welcomes all children between the age of 2 years and 4 years of age, from all cultures and backgrounds, including those who are disabled. We will make whatever reasonable adjustments we can to ensure that everyone is safe, welcome and able to take part.

Our aims:-

Within the setting we encourage the children to be independent, the foundation is laid by making it fun and focusing on the children's interests. Activities are available inside and out to help further the children's learning using lots of different resources. We offer a wide variety of activities that cover the early years foundation stage 7 areas of learning and promote the characteristics of effective and British values. We encourage all children in these activities and ensure that it is tailored to suit their individual needs.

Busy Bees has a daily routine that is modified on a day-to-day basis depending on the children's wants and needs. The children are encouraged to follow simple instructions and daily routines.

Pre-school session: - We offer a pre-school session on a Friday. This session further promotes independence and allows children to safely explore various situations to learn key skills that help them in their transition to school.

Our staff: -

Busy Bees has a fully qualified team, lead by our manager Ms Hailie Sturt. All staff hold a relevant childcare qualification, we are very lucky to have one staff member who holds an early years initial teacher training qualification. All staff have appropriate first aid and child protection training. Our staff come with a wealth of experience in child care.
