

Enrichment

At Castle Hill Primary School we embrace the importance of learning beyond the classroom. We provide lots of opportunities to support and enable children to develop their enquiry skills and knowledge about their local area and world around them

Forest School

Forest School at Castle Hill is a holistic way for our pupils to safely explore the natural world. The children follow their own imaginations and interests and have the opportunity to work independently and collaboratively. They make dens, use tools, climb trees, and explore mud, clay and other natural resources creatively. They go on minibeast hunts, make magic potions, weave, create collages and many other activities.

School Trips

At Castle Hill we use school trips and visitors to enhance our Creative Curriculum. Here are some examples of trips that we provide alongside visits in our locality.
